Self Critique: What we did well

- Git Workflow
- Pair Programming
- Issue resolution
- Vision for end result

Self Critique: What we could have done better

- Having a standard for variable names
- Eclipse IDE
- Adding design patterns late
- Meeting times

IDE Tier List

A	
B	
C	
D	
E	
F	

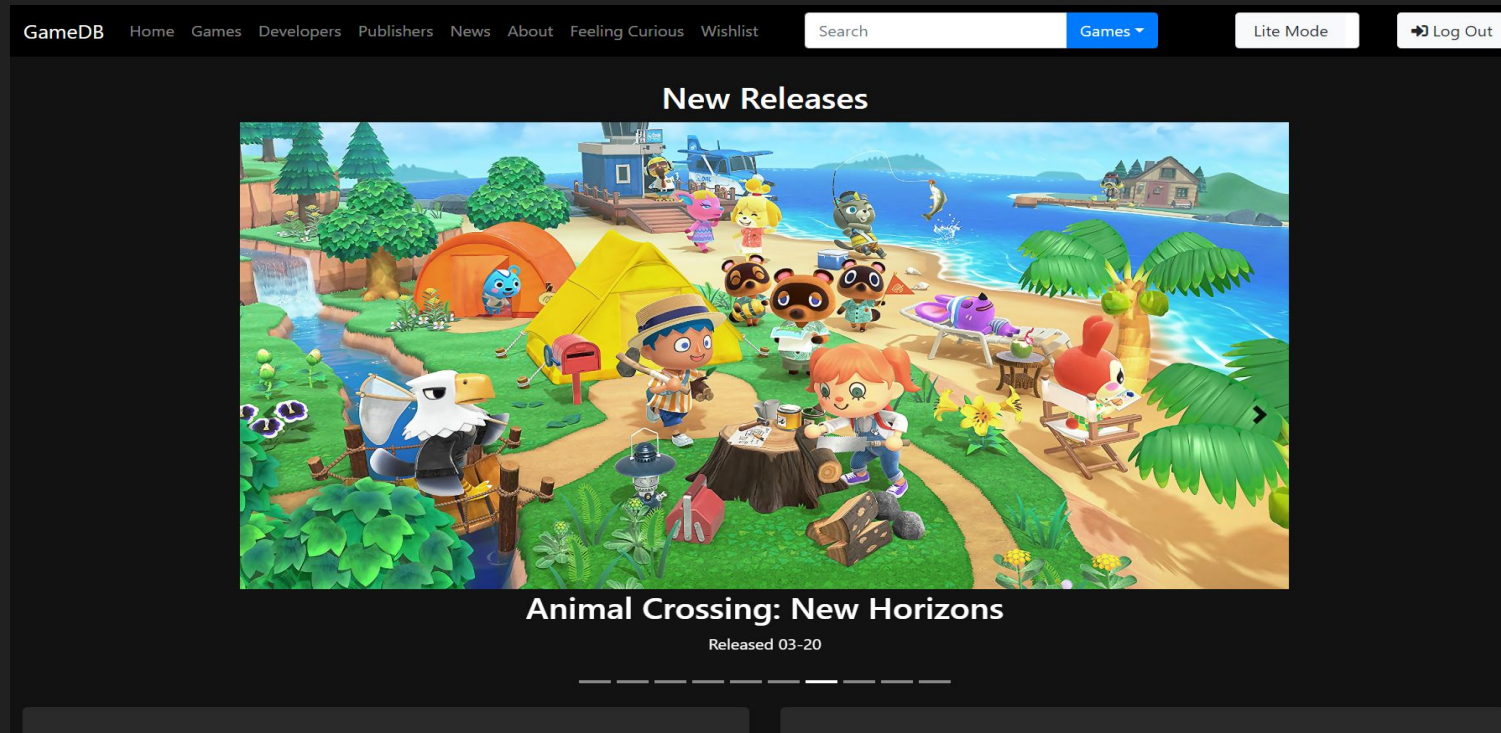

Self Critique: What we learned

- Design patterns should have been considered before code was written
- Honesty among group members relating to abilities and strengths
- (COVID-19) Shifting everything to online was harder than expected
- Less popular frameworks and technologies are tough to troubleshoot

The Sunday Papers

From: Rockpapershotgun.com

Sundays are for, yep, staying at home. It's OK, though, as there are videogames there. And the best writing about them from the past week, which you can find assembled below. RE:BIND have published Skeleton's take on the Final Fantasy 7 remake. And there are f...

May day! May day! The 7 best distress calls in PC games

From: Rockpapershotgun.com

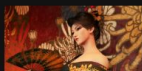

One Off The List is our weekly list feature. Is there something you think doesn't deserve to be on this list? Comment with your reasons why, and next week it may be struck off. May day! May day! It's May Day, get it? I constructed this list of the 7 best dist...

The Sunday Papers

From: Rockpapershotgun.com

Sundays are mainly for videogames, nowadays, aren't they? Don't worry, you can spice things up by reading the best writing about them from the past week. For Kotaku, Siddhartha Bajracharya wrote about his experiences working as a doctor during the current cri...
